

Shared Maternity Care with Non-affiliated Provider

1. Purpose

On occasions women who have been deemed as appropriate for shared maternity care request to undertake shared maternity care with a maternity care provider who is not affiliated with the Women's. This usually happens when the woman has nominated a provider who is unwilling to complete the necessary paperwork or fulfil the criteria to become a shared maternity care provider.

In some of these cases it is the opinion of the health professionals at the Women's that the woman may not present for appropriate antenatal care at the Women's or with a shared maternity care affiliate and is best served seeing a maternity care provider who is not affiliated with the Women's for part of her antenatal care.

The purpose of this guideline is to outline criteria for women to undertake a shared care arrangement for their antenatal care with a maternity care provider of their choice, who is not affiliated with the Women's.

2. Definitions

Not applicable.

3. Responsibilities

Staff caring for a woman during her antenatal care requiring shared maternity care with non-affiliated provider should follow this guideline.

4. Guideline

4.1 Criteria

Criteria for participation in shared maternity care by a provider who is not affiliated with the Women's.

4.2 Provider

1. Qualification

- Fellow Royal Australian and New Zealand College of Obstetricians and Gynaecologists (RANZCOG).

Evidence: to be confirmed via RANZCOG website by Shared Maternity Care Coordinator.

OR

2. Qualification:

Medically registered practitioner who is not a Fellow of RANZCOG, and

- woman lives in >75 km from the Women's, and
- the registered medical practitioner works >50 km from the Women's.

Evidence: Shared Maternity Care Coordinator to check:

- Medical Practitioners website to ensure registration of medical practitioner
- location of woman and practitioner is >as above from the Women's.

4.3 Woman

1. Woman to request shared care with the specific doctor.
2. Woman informed that the doctor has no affiliation or credentialing with the Women's.
3. Woman refuses to see an affiliated shared care practitioner or return to the hospital for antenatal visits.

4.4 Process

1. Woman deemed eligible to participate in shared maternity care requests care with a doctor who is not affiliated with the Women's.
2. Shared Maternity Care Coordinator to explain to woman:
 - that her nominated doctor is not a shared maternity care affiliate and not credentialed with the Women's
 - to encourage registration with an accredited shared maternity care affiliate

Shared Maternity Care with Non-affiliated Provider

- to encourage hospital review for antenatal care.
- 3. Shared Maternity Care Coordinator to establish with woman that she is unlikely to attend antenatal appointments at hospital or with an accredited shared maternity care affiliate.
- 4. If the woman continues to want shared care with a non affiliate doctor, the following occurs:

If doctor is an obstetrician	If doctor is NOT an obstetrician
Shared Maternity Care Coordinator to confirm on RANZCOG website that doctor is a RANZCOG Fellow	Shared Maternity Care Coordinator to confirm woman resides >75 km from the Women's
	Shared Maternity Care Coordinator to confirm doctor works > 50 km from the Women's
Shared Maternity Care Coordinator to check Medical Practitioners website to ensure registration of medical practitioner	Shared Maternity Care Coordinator to check Medical Practitioners website to ensure registration of medical practitioner.

5. Shared Maternity Care Coordinator to contact Head of GP Liaison Unit by email with details of woman, proposed community provider, and details under point 4 (above).
6. Head of GP Liaison Unit to confirm that it is appropriate to register woman for shared maternity care with the provider.
7. Shared Maternity Care Coordinator to send the doctor a letter explaining registration for shared care for this patient in this pregnancy only (refer to [Appendix 1](#)).
8. Copy of email response by GPLO and letter to be filed in woman's medical record.
9. Provider is not put on shared maternity care list or database.

These arrangements would need to be repeated for every woman in every pregnancy; even if they are requesting care with the same non shared maternity care affiliate as another patient.

The establishment of these arrangements is at the discretion of the Women's.

5. Evaluation, monitoring and reporting of compliance to this guideline

The Shared Maternity Care Coordinator will collect data on the number of women receiving care under this arrangement and why.

I

Date

Doctor's name

Business address

Dear Dr ,

(insert full name of pregnant woman) is booked for pregnancy care at the Women's, but wishes to see you for some of her antenatal care.

Her EDD is *(insert EDD)*.

Unfortunately, you are not accredited as a shared maternity care affiliate at The Royal Women's Hospital (the Women's).

Nevertheless, *(insert full name of pregnant woman)* has insisted on some antenatal care being provided by you. We hope you agree - please notify me if you would not like to provide this care.

She will require antenatal care by you at: 16 weeks, 22 weeks, 32 weeks, 34 weeks, 38 weeks, 40 weeks (these are the minimum number of antenatal care visits).

In addition, she has antenatal appointments at the Women's at 28 weeks, 36 weeks and 41 weeks *(alter as appropriate)*

Please use her Pregnancy Hand Held Record to summarise your consultations, including investigations and results, as this is the main communication tool between the hospital and yourself.

If you have any non urgent queries or concerns please me.

If you have more immediate queries, please contact the on-call Maternity Registrar via the Women's switchboard on (03) 8345 2000.

Shared maternity care guidelines are available on the Women's public website:

<http://www.thewomens.org.au/SharedMaternityCareAffiliates>.

I have enclosed an application form for shared maternity care affiliation and invite you to apply.

Please do not hesitate to contact me should you have queries or concerns regarding the above.

Yours sincerely

Jane De Marco

Shared Care Coordinator

The Royal Women's Hospital
