EXTERNAL EVENTS 2018

HEALTHCARE SUMMIT 2019

Kicking off the AFR National Policy Series in 2019 is the highly anticipated inaugural AFR Healthcare Summit in Sydney on 19 February.

2019 is set to be a big year as healthcare continues to transform. Rapidly evolving technologies enabled by interoperable data and platforms, medical advances along with demographic and economic changes, are significantly altering healthcare worldwide and empowering patients to take control of their health and wellbeing. There is a necessary, renewed spotlight on quality and conduct in aged care, and in all care. How can all stakeholders – industry, care providers, government, practitioners, researchers and patients – come together to drive this change?

The Summit will cover key topics facing the future of healthcare in Australia including:

- The future of digital health in Australia
- Quality and conduct
- Technology and the art of the possible
- Population health management
- Health transformation in Australia

e-MEDICATION MANAGEMENT CONFERENCE

For this year's event, we're excited to focus on how sites across the country are progressing beyond implementation and into the next optimization phase of EMM rollouts. Navigating the complexities and investigating specialized, customized developments are where the really interesting lessons to be learned are. We'd love you to join us at the eMedication Management Conference for 2019 to benchmark your site against others and exchange ideas, experiences and lessons with your peers across the country.

DON'T MISS:

- An interactive CMIO & CPIO panel on electronic medications management for special groups – what are the challenges of building and implementing an electronic medications management system that caters for all age ranges and special patient cohorts?
- A talk from A/Prof Naren Gunja, Chief Medical Information Officer at Western Sydney Health. Auburn Hospital was one of the first in NSW to roll out fluid prescribing in eMM and they will be talking about their bag-by-bag solution at the event in March
- Jae Choi of Austin Health discussing what is being done in oncology in Victoria
- Deborah Boland and Janelle Keyser from Children's Health Queensland Hospital and Health Service will be sharing information on the Complexity of Design and Implementation of Painful Paediatric Pain Infusions for Qld ieMR
